

Firestopping Center

Endothermic Fire Caulk

GrabberGard EFC is a single component smoke and fire stopping sealant for wall and floor penetrations and other construction gap applications. During a fire, GrabberGard EFC absorbs heat and provides a fire barrier against fire and smoke.

Available Forms

- ▶ 10.1 oz. (300 ml) tubes
- ▶ 29 oz. (850 ml) tubes
- ▶ 20 oz. (590 ml) sausages
- ▶ 5 gal. (18.9 L) plastic pails

Applications

An effective firestop for head of wall, construction joints and walls of most common construction materials and penetrants such as metal pipes, conduit and cables.

Advantages

- ▶ Endothermic - releases water vapor, which retards the spread of fire
- ▶ Single component
- ▶ Adheres easily to dry or damp surfaces of all standard construction materials
- ▶ Accommodates up to 33% joint movement (compression/extension)
- ▶ Water-based for easy clean up

Intumescent Fire Caulk

GrabberGard IFC is a single component smoke and fire stopping sealant for wall and floor penetrations and other construction gap applications. During a fire, GrabberGard IFC expands to maintain a tight seal against fire and smoke.

Available Forms

- ▶ 10.1 oz. (300 ml) tubes
- ▶ 29 oz. (850 ml) tubes
- ▶ 20 oz. (590 ml) sausages
- ▶ 5 gal. (18.9 L) plastic pails

Applications

An effective firestop for head of wall, construction joints and walls of most common construction materials, and penetrants including: metal pipe/conduit, small combustible pipes, insulated pipes, electrical cables and cable trays, mechanical ducts and multiple items.

Advantages

- ▶ Intumescent-expands in volume to quickly close off voids left by burning or melting components
- ▶ Single component
- ▶ Adheres easily to dry or damp surfaces of all standard construction materials
- ▶ Accommodates up to 33% joint movement (compression/extension)
- ▶ Water-based for easy clean up

GrabberGard fire caulks and sprays have been tested in accordance with rigorous industry standards and have been determined to be fungi resistant.

Protect it with Grabber Fire Caulk

GrabberGard EFC is a single component smoke and fire stopping sealant for wall and floor penetrations and other construction gap applications. During a fire, GrabberGard EFC absorbs heat and provides a fire barrier against fire and smoke.

GrabberGard IFC is a single component smoke and fire stopping sealant for wall and floor penetrations and other construction gap applications. During a fire, GrabberGard IFC expands to maintain a tight seal against fire and smoke.

Available in:

10 oz. Cartridge

20 oz. Sausage

29 oz. Cartridge

5 Gallon Buckets

GrabberGard fire caulks and sprays have been tested in accordance with rigorous industry standards and have been determined to be fungi resistant.
